General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the Trade-marks Regulations. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (<http://cipo.gc.ca>). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

ALNOVAT

GOODS

(1) Chemicals used in the pharmaceutical industry, namely, inorganic acids, alkalies, inorganic salts, chemical elements, oxides, sulphides, carbides, waters, airs, aromatics, aliphatics, organic halogenides, alcohols, phenols, ethers, aldehydes and ketones, organic acids and their salts, esters, nitrogen compounds, heterocyclic compounds, carbonic hydrates, gum Arabic, creosote, camphor, camphor oil, menthol (peppermint), peppermint oil (material for chemical preparation), borneol, proteins and enzymes, organophosphorus compounds and organoarsenic compounds, organometallic compounds, surface-active agents (surfactants), and chemical agents and chemicals used in the photography, as well as in agriculture, horticulture and forestry industries; Manures; Fire extinguishing compositions; tempering preparations for metals, namely, tempering chemicals; soldering preparations, namely, soldering chemicals, soldering fluxes; Chemical substances for preserving foodstuffs; tanning substances, namely, chemical tanning substances for use in the manufacture of chemicals, molds, adhesives, coatings, and plastics for use in automotive, cosmetics, aerospace, chemical, coatings, construction, electrical, electronic, health care, household care, industrial assembly and maintenance, mold making, paper, pressure sensitive, personal care, plastics, textiles, leather, and non-woven industries; Adhesives used in the pharmaceutical industry

(2) A full line of pharmaceutical and veterinary preparations, namely, for the relief of pain stemming from the following diseases and disorders, infectious diseases, respiratory diseases and disorders, cancer, gout, gastro-intestinal diseases, pulmonary hypertension, heart rhythm disorders, hormonal disorders, infectious diseases, allergic rhinitis and asthma, diabetes, skin disorders, wounds, disorders of the nervous system, the immune system, the cardio-vascular system, the metabolic system, the respiratory system, the musculo-skeletal system, the genitourinary system, inflammatory disorders, gastroenterological disorders, for the use in dermatology, oncology, haematology and in tissue and organ transplantation, in ophthalmology and the prevention of osteoporosis; Sanitary preparations for medical purposes, namely disinfectant cleaner for hygienic purposes; test strips for detecting blood glucose levels; diagnostic preparations for detecting and monitoring diabetes, hypertension, hypotension and reduced blood oxygen content; sanitary preparations for medical purposes, namely adhesive tapes and plasters for medical purposes; sanitary preparations for medical purposes, namely astringents, analgesic balms, bath salts, medicated hair care preparations, articulation and joint creams, skin cleansing lotions and anti-bacterial wound cleansers, antiseptics, soaps and cleansers; sanitary preparations for medical purposes, namely, disinfecting preparations for hands, feet, skin and body, namely sanitizers having anti-bacterial and anti-microbial properties; dietetic substances adapted for medical use, namely, dietetic foods for medical use, namely prepared meals, dietary pills and capsules, metabolites, minerals and vitamins; food for babies; medical plasters, materials, namely, bandages for dressings; Material for stopping teeth, dental wax; disinfectants for household use, disinfectants for medical instruments, all purpose disinfectants, disinfectants for industrial machinery, disinfectants for food and beverage industry, disinfectants for laundry industry, disinfectants for paper industry, disinfectants for cooling water, disinfectants for waste water, disinfectants for ballast water, disinfectants for vegetables washing water, disinfectants for animal hygiene, disinfectants for carcase washing; Preparations for destroying vermin; Fungicides, herbicides

(3) Surgical, medical, dental and veterinary apparatus and instruments, namely Abdominal belts, abdominal pads for medical use, abdominal towels for medical and surgical use, aerosol dispensers for medical use, aerosol masks for medical use, air filters for medical Ventilators, air mattresses for medical purposes, air pillows for medical purposes, anatomic pathology specimen collection kit comprising glass slides, centrifuge tubes, formalin jars, coupling jars, insert to hold slides and jars, absorbent cloth, and Instructions, all for medical use, apparatus for dispensing non-medical oxygen and aromatherapy that also utilizes light, sound, mid Vibration for relaxation therapy, apparatus for physical training for medical use, athletic ankle braces for medical use, autoclaves for medical use, back Supports for medical purposes, bags for medical waste, belts for attaching medical monitors to patients, belts for medical purposes, blood collection kit comprised of blood collection bag, holder for medical sample tubes and vials, and medical sample tubes and vials, blood component Separation apparatus for medical purposes, blood pressure and diabetic diagnostic medical devices, body rehabilitation apparatus for medical purposes, orthopedic braces for limbs and joints for medical use, breast warmer pads for medical purposes, breath gas analyzers for medical diagnostics, canes for medical purposes, carrying cases specially adapted for holding and carrying portable medical oxygen cylinders, cases fined for medical instruments and for use by doctors, ceiling Service units specially adapted for mounting medical apparatus, for feeding electricity to medical apparatus and for supplying signals and liquids and gases to and transferring signals and liquids and gases from medical apparatus, cell culture apparatus for medical use, namely, cell culture Chambers, cervical pillows for medical use, chemically activated hot and cold gel packs for medical purposes, clothing extension support devices for use during pregnancy for medical purposes, coatings sold as an integral component of medical stents and other implantable medical devices, compression socks for medical and therapeutic use, Computer controlled automatic injection System for injecting medical fluids during the process of diagnosis of a condition

in an individual and during computed tomography (CT) procedures, Computer displays and Computer monitors and Controllers therefor used in direct association with medical diagnosis apparatus during the process of diagnosis of a condition in an individual, computerized medical recording and analysis apparatus for the diagnosis and treatment of arrhythmias, Containers especially adapted for the disposal of medical instruments, syringes and other contaminated medical waste, Containers especially made for medical waste, Containers for medical waste, Containers for Solutions used for the treatment of renal insufficiency, namely, bags, pouches, cartridges, rigid and semi-rigid Containers for concentrates and Solutions in solid and liquid form for medical use, cooling apparatus used for medical and surgical equipment used during medical and surgical procedures, coverings for medical exam tables, cryoprobes for treatment of tumors, cytometers for medical diagnostic use, dental and medical drill bits for cutting teeth and bone, dental products, namely, plastic material for fabricating complete and partial denture liners/re-lines and for fabricating gaskets for over dentures, devices for measuring blood sugar for medical purposes, devices for monitoring blood glucose for medical purposes, displays, monitors and Controllers for medical fluid injectors, namely, Computer displays and Computer monitors and Controllers therefor used in direct association with medical diagnosis apparatus, displays, monitors and Controllers for medical fluid injectors, namely, Computer displays and Computer monitors and Controllers therefor used in direct association with medical fluid injectors, disposable bottle liners for use with medical apparatus, disposable headrest Covers for medical and dental examination chairs, disposable medical sterilization pouches, drainage tubes for medical purposes, dropper bottles for administering medication, sold empty, droppers for administering medication, sold empty, dropping pipettes for medical purposes, drug delivery patches sold without medication, ear plugs for medical purposes, elastic stockings for medical purposes, electric automatic moist heating pad for medical purposes, electric blankets for medical purposes, electro-surgical motors being part of surgical and medical apparatus and instruments for use in general surgery, electrochemical sensors for determination of analyte concentrations in fluids for medical purposes, electrodes for medical use, electroencephalography kit consisting of an electrode headset, a digital recorder and transmitter, a tablet computer monitor, and Instructions for use in medical settings including emergency departments, ambulances, intensive care units, and offices, electromagnetic drug delivery apparatus for medical use, electromagnetic medical diagnostic imaging apparatus, electromedical rehabilitative and pain management products for clinical and home use, namely, electrical nerve and muscle stimulators, ultrasonic stimulators, magnet therapy stimulators and laser therapy stimulators, Elizabethan collars for dogs, emergency medical equipment, namely, headboards, ergometers for medical testing purposes, eye Charts for medical examination use, feeding cups, filters for medical purposes, namely, blood and respiratory, finger guards for medical purposes, fitted sleeve for filled compressed gas cylinder used for medical purposes to identify the contents of the cylinder, flow cytometers and flow-based analyzers providing cell and particle analysis, detection, and counting for medical, clinical, medical diagnostic, and therapeutic uses, flow cytometers for medical diagnostic uses, foam positioning pads for medical and physical therapy use, forceps for medical use, gloves for medical purposes, gloves for medical purposes, namely, latex and disease prevention, gloves for medical use, goods of metal for medical use, namely, screws, plates, pins and pivots, gynecological medical instruments for examining women's reproductive organs, headlight lens modules for medical and surgical use, heat and moisture exchanger for medical use, heat lamps for medical use, heaters and warmers used for medical and surgical equipment used during medical and surgical procedures, heating cushions for medical purposes, heating pads for medical purposes, hematology analyzers for medical diagnostic uses, human face protectors, namely, transparent face shields for use in the medical and dental fields, humidification apparatus for medical purposes, humidifiers for medical use, hyperbaric oxygen Chambers for medical purposes, ice bags for medical purposes, immunochemical testing

apparatus for medical use, in-ear monitors for medical purposes, infant sleep positioner cushions for medical and therapeutic purposes, namely, for preventing disorders, inhalers for medical purposes, sold empty, injection needles for medical use, instrument and apparatus Systems for medical diagnostic uses consisting of flow cytometers, hematology analyzers, sample preparation device, and related data management Software sold as a unit, integrated medical examination Systems comprising medical devices and Computer Software for Information management for use in web-based physical examination and assessment of patients in a remote for clinical settings, irrigators for medical use, kits for the application of ice bags for medical purposes comprised of plastic ice bags for medical purposes, plastic film, handle for the application of plastic film, plastic bag sealer, plastic bag dispenser, knives for medical use, laser pointers for medical use, lasers for medical purposes, lasers for medical use, lasers for surgical and medical use, latex medical gloves, light emitting diode (LED) for lighting, incorporated into medical instruments, light emitting diode (LED) for energy-efficient replacement of Standard tungsten-filament lighting incorporated into hand-held medical instruments, light-based medical devices, namely, a light emitting diode (LED) device for increasing the human body's own production of collagen, loupes for medical purposes, namely, magnifying glasses that fit on the user's face in the manner of eyeglasses, lower body alignment apparatus for medical purposes, luminescent labels for medical applications for use during procedures and in medical environments that are dark or have lower light levels, magnets for medical purposes, magnifying glasses, for medical examination purposes, that fit on the user's face in the manner of eyeglasses, magnifying glasses, for medical purposes, that fit on the user's face in the manner of eyeglasses, magnifying loops for medical purposes, masks for use by medical personnel, massage apparatus, mastectomy bras for medical purposes, maternity support belts for medical purposes, medical and dental apparatus for dimensional measurement, namely, 3d Scanner for human body, medical and dental sterilizers, medical and surgical apparatus and instruments, namely, devices used in orthopedic surgery to position surgical instruments, implants and patients' limbs, medical and surgical apparatus and instruments, namely, orthopedic fixation device used in orthopedic transplant and implant surgery, medical and surgical apparatus and instruments, namely, vertebral osteosynthesis staple-shaped apparatus and instruments, medical and surgical catheters, medical and surgical Cutters for cutting human and animal tissue and organs, medical and surgical knives and cutters for cutting human and animal tissue and organs, medical and surgical knives for cutting human and animal tissue and organs, medical and surgical laparoscopes and catheters, medical and therapeutic device and apparatus, namely, a force and motion sensing apparatus and assisted exercise machine for the rehabilitation of hands, wrist, ankles, arms, legs, neck affected by neuromuscular diseases, disorders, and injuries for home and clinical use, medical apparatus and instrument for diagnostic use, namely, apparatus for medical diagnostic testing in the fields of Cancer and other tissue-based diagnostic testing, cytology and cell-based testing, medical apparatus and instruments for diagnostic radio pharmaceutical use, namely needles, inhalers, radiation detectors; medical apparatus and instruments for monitoring blood properties and respiratory events, medical apparatus and instruments for monitoring oximetry, gas analysis, vital signs, blood properties and respiratory events and Software sold therewith as a unit, medical apparatus and instruments for treating cardiovascular disease, medical apparatus and instruments for treating Osteoarthritis, osteoporosis, osteotraumatic injuries, degenerative bone diseases and Joint diseases, medical apparatus and instruments for use in orthopedic surgery, medical apparatus and instruments for use in positron emission tomography (PET) imaging, medical apparatus and instruments for use in positron emission tomography (PET) imaging used to monitor brain, heart and metabolic functions, medical apparatus and instruments for use in surgery, medical apparatus and instruments relating to neurovegetative reactivity, medical apparatus and instruments, namely, a handheld ultrasound unit for cardiac diagnosis, Screening and cardiovascular patient follow-up, medical apparatus and units for dosage, measuring and

monitoring, namely, drug delivery devices and Systems, medical apparatus for detecting Cancer, medical apparatus for detecting rapid eye movement and other physiological conditions in a sleeping person indicative of dreaming and for inducing partial awakening so as to cause a State of lucid dreaming, medical apparatus for diagnosing and treating respiratory conditions, medical apparatus for diagnosing and treating respiratory conditions, namely, respiratory aspirators; medical apparatus for diagnosing suspected heart attacks, medical apparatus for facilitating the inhalation of pharmaceutical preparations, medical apparatus for intravenous administration of fluids, namely, fluid warmers, medical apparatus for introducing pharmaceutical preparations into the human body, medical apparatus for monitoring vital signs of patients, medical apparatus for preventing and reversing heart failure, medical apparatus for treating congestive heart failure, medical apparatus to improve cardiac Performance through aortic flow therapy, medical apparatus, namely, a spinal fusion device, medical apparatus, namely, adhesive tape for sealing plastic ice bags, medical apparatus, namely, an ear wash device in the nature of a Container to be filled with appropriate fluid by the user for flushing ear wax from the ear, medical apparatus, namely, an extremity garment donning assist device for use by physically handicapped persons, medical apparatus, namely, an injectable oxygen delivery System comprising an oxygen device which produces nanobubbles and nanobatteries to prevent and treat eye disease, medical apparatus, namely, bi-level positive airway pressure (BPAP) devices, medical apparatus, namely, blood pump System for use in artificial liver support, medical apparatus, namely, continuous positive airway pressure (CPAP) devices, medical apparatus, namely, dispensers for plastic ice bags, medical apparatus, namely, electric heating devices for curative treatment, medical apparatus, namely, electric vaporizer for upper respiratory conditions, medical apparatus, namely, electric vaporizer that emits menthol for treatment of upper respiratory conditions, medical apparatus, namely, fetal and maternal vital sign and physical distress monitors, medical apparatus, namely, handheld devices containing a foam swab for obtaining buccal cells, medical apparatus, namely, implantable ports, medical apparatus, namely, infusion and injection devices for administering drugs, medical apparatus, namely, invasive and non-invasive Ventilation apparatus and instruments, medical apparatus, namely, ladder-type device to assist physically handicapped individuals in transferring from one position to another, medical apparatus, namely, lung Ventilators with monitoring capability, medical apparatus, namely, marking pens for use in surgical procedures, medical apparatus, namely, non- and low-compression devices for holding thermal packs to the breasts, medical apparatus, namely, plastic film for use in the application of ice bags, medical apparatus, namely, plastic handles for use in the application of plastic film around ice bags, medical apparatus, namely, respiratory equipment and monitors therefor, medical apparatus, namely, System for use in artificial organ support, medical apparatus, namely, therapeutic devices for delivering specifically engineered pressure and gas mixtures for medical benefit, medical apparatus, namely, tick removal devices, medical apparatus, namely, timing devices for uterine contractions, medical apparatus, namely, variable positive airway pressure devices (VPAP), medical apparel, namely, women's garment for use in medical examination and treatment, medical bags adapted for and sold with medical, surgical and veterinary instruments, medical bags designed to hold medical instruments, medical braces for knee, ankle, arm, leg, medical braces, namely, spring-loaded chest to leg brace used to support the body during physical activity, medical compression stockings and tights, medical cutting devices, medical device and surgical instrument for use in diagnosis and surgery of the gastro-intestinal tract, medical device for accessing subcutaneous structures of the human body for the purpose of administering medical treatment, medical device for detecting Cancer, medical device for percutaneous intraluminal emplacement of coronary bypass grafts, medical device for treating Cancer, medical device for treating lymphedema, medical device used for the acquisition of physiological data for polysomnography, medical device, namely, a device for improving cardiac Performance through aortic flow therapy, medical device, namely, a device for

measuring arterial blood flow in the eye, medical device, namely, a device for measuring body position during sleep, medical device, namely, a device for measuring leg movements during sleep, medical device, namely, a remote manipulation System consisting of a robotic arm, knob, deflection lever, and buttons, to facilitate remote catheterizations, medical device, namely, a small cushioned rope embedded with activated charcoal to be worn across a person's anus for minimizing the sound and odor of flatulence, medical device, namely, a telerobotic system consisting of a motorized catheter positioner having rotational and translational movement capability and a tele-robotic Controller with rotation, translation and deflection control buttons, to facilitate remote catheterizations, medical device, namely, breast localization wire and parts and fittings therefor, medical device, namely, carbon dioxide indicators, medical device, namely, chemiluminescent light for use in endoscopic exams, medical devices and apparatus, namely, hernia mesh and component of hernia mesh, and parts and fittings for all of the aforesaid goods, medical devices and apparatus, namely, hernia mesh, memory coil, a memory coil as a component of hernia mesh, and parts and fittings therefor, medical devices and apparatus, namely, medical guidewires and parts and fittings therefor, medical devices and apparatus, namely, mesh graft for pelvic floor reconstruction, medical devices and apparatus, namely, surgical implants comprised primarily of artificial material and also incorporating processed animal tissue for use in plastic reconstructive surgery, and repair, reinforcement and buttressing of soft tissue, and parts and fittings therefor, medical devices and apparatus, namely, ultrasound imaging apparatus, Scanners and needle guides, and parts and fittings therefor, medical devices and apparatus, namely, vacuum assisted breast biopsy system and parts and fittings therefor, medical devices for amputees, namely, Supports and extensions, medical devices for dosimetry purposes in the field of radiotherapy, medical devices for kegel exercises, namely, pelvic floor exercisers for use to treat Symptoms of urinary incontinence and for therapeutic purposes, medical devices for monitoring blood properties and respiratory events, medical devices for monitoring oximetry, gas analysis, vital signs, blood properties and respiratory events and Software sold as a unit therewith, medical devices for monitoring oximetry, gas analysis, vital signs, blood properties and respiratory events and system that transmit the data through the Internet, medical devices for monitoring vital signs, blood properties and respiratory events, medical devices for nonsurgical cosmetic treatments, medical devices for obtaining body fluid samples, medical devices for treating congestive heart failure, medical devices for treating vascular bifurcations, medical devices for use in cannulation and to stem the flow of traumatic bleeding, namely, tourniquets, medical devices to treat intravascular sites, medical devices used in colostomy procedures to collect waste materials, medical devices, namely, bone mineral densitometer (BMD) machines, medical devices, namely, devices for measuring wounds, medical devices, namely, devices for spinal disc repair in the nature of an apparatus used in spinal disc repair procedures, medical devices, namely, devices for spinal disc repair in the nature of spinal disc implants made from artificial substances, medical devices, namely, drinking cups for use by patients with swallowing disorders, medical devices, namely, hand-held motorized, vibrating devices used near injection sites for reducing pain during hypodermic needle injections, medical devices, namely, infusion pumps for delivering measured amounts of Solutions into the bloodstream over time, medical devices, namely, intravascular implants comprised of artificial material, medical devices, namely, minimally invasive devices for abdominal aortic aneurysms repair, medical devices, namely, minimally invasive neurovascular devices for the treatment of neurological conditions, medical devices, namely, myocardial ischemia scanning devices, medical devices, namely, patient monitors and patient sensors for monitoring and measuring blood properties and respiratory events, medical devices, namely, pulse oximeters, medical devices, namely, radiation devices in the nature of ultraviolet, visible, and infra-red light boxes for counteracting the effects of viruses, bacteria and pathogens in the blood and blood components, medical devices, namely, spinal cross connectors, medical devices, namely, spinal

implants composed of artificial materials, medical devices, namely, surgical devices that facilitate the identification, Separation and ablation of biologic tissues, medical devices, namely, tubing and bag assembly set and other similar and related devices, which process and treat human platelets with clinical medical reagents for the purpose of enabling the refrigerated storage of human platelets for blood groups for use in blood transfusions, medical devices, namely, tubing and valve assembly set and electromechanical fluidic instrument, and other similar and related devices, which process human red blood cells with clinical medical reagents for the purpose of Converting blood groups for use in blood transfusions, medical devices, namely, tubing and valve assembly set and electromechanical fluidic instrument, and other similar and related devices, which process human whole blood for the purpose of separating human blood components for use in blood transfusions and washing human red blood cells with clinical medical reagents for use in blood transfusions, medical diagnostic apparatus for detecting Cancer, medical diagnostic apparatus, analytical apparatus for medical purposes and blood pressure measuring apparatus, medical diagnostic instruments for the analysis of body fluids, medical dose meter that measures the total radiation dose received by a patient during a diagnostic procedure, medical electrodes, medical endotracheal tube with securing device, medical equipment accessories, namely, electrodiagnostic automated constant current sinusoid waveform neuroselective sensory nerve testing devices, namely, disposable electrodes, medical equipment for pediatric patients, namely, multiple position safety seat, medical equipment, namely, computed tomography (CT) apparatus, medical examination gloves, medical examination lamps, medical fluid injectors, medical gloves, medical gowns, medical guidewires, medical guidewires and parts and fittings therefor, medical hearing instruments and parts of such devices, medical hosiery, namely, leotards, medical hosiery, namely, support pantyhose, medical hosiery, namely, knee, thigh, leg, medical ice packs, medical image processors, medical imaging apparatus in the field of iridology, sclerology, rayid and eyology, medical imaging apparatus incorporating medical imaging Software, medical implant apparatus, namely, healing caps made of artificial matter, medical implants of artificial material in particular for anchoring Joint capsule components and ligament tendon structures, medical implants, namely, a polymer gel that is injected into the vas deferens tube for contraceptive purposes, medical instrument for cardiovascular diagnostics, medical instrument Organizer specially fitted with pockets adapted for holding medical instruments, medical instruments and apparatus, namely, delivery apparatus for fibrin sealant, medical instruments and devices, namely, external fixators, medical instruments for cutting tissue, medical instruments for interstitial thermotherapy of biological tissue, medical instruments for intraluminal emplacement of Stents and of synthetic Stent grafts, namely, Stent and synthetic Stent graft delivery Systems, medical instruments for percutaneous tracheostomy, medical instruments for recording heart activity, medical instruments for use in performing biopsies, medical instruments for use in surgery, medical instruments to measure blood pressure, cardiac Output and other physiological and cardiovascular parameters, medical instruments, namely, biosensors for detecting infectious diseases, medical instruments, namely, orthopedic apparatus and instruments, medical introducers, medical intubation equipment, medical leads, namely, pulse generator leads, medical needles and introducers, medical operating lamps, medical patient treatment chairs, medical products, namely, biofeedback sensors, medical products, namely, respiratory sensors, medical products, namely, therapeutic mattress support, medical products, namely, therapeutic mattresses, beds, seats and cushions, medical radiation apparatus, medical scissors, medical screw connections, medical skin abrasers, medical specimen bags for holding body tissue samples for testing purposes, medical specimen cups, medical spittoons, medical Stents, medical stretchers, medical supply Organizer specially adapted for holding medical instruments and pharmaceuticals for use in pediatric resuscitation, medical syringes, medical table sheets for examining tables and operating tables, medical test kits for diabetes monitoring for home use, medical testing devices for measuring hearing loss in patients,

namely, audiometers, medical trays for surgical instruments for surgical and pain clinics, medical treatment apparel, medical tubing for transfusion, draining, administering drugs, medical ultrasound apparatus, medical ultrasound apparatus to assist in the placement of central line catheters, medical Ventilator tubing and tubing connectors, medical Ventilators, medical wearing apparel, namely, caps, medical wearing apparel, namely, scrub pants, medical wearing apparel, namely, scrub tops, medical wearing apparel, namely, shoes, medical x-ray apparatus, medical x-ray film, medical, surgical and orthopaedic implants made of artificial materials, meters for medical use, namely, for measuring pulse, mittens for medical use, mounts for medical x-ray negatives, mounts for x-ray negatives for medical purposes, mouth exerciser for use in exercising and strengthening mouth and facial muscles for medical and beauty benefits, mouth guards for medical purposes, nebulizer for administering medication in the form of a mist inhaled into the lungs, for treatment of respiratory diseases, needles for medical purposes, needles for medical use, neonatal products, namely, enteral safety System comprising oral dispensers, oral extension tubes and enteral feeding tubes, oral syringes and Containers for breast milk and formula sold as a unit, nitrile gloves for medical use, non-medicated adhesive sheets for removing ticks, non-medicated compresses, nuclear spin tomographs for medical purposes, occlusive suits for medical purposes, organoleptic diagnostic testing apparatus for medical, dental and cosmetic use, oxygen concentrators for medical applications, oxygen inhalers for medical purposes sold empty, oxygen masks for medical use, paper bags and envelopes for sterilizing medical instruments, patient medical monitors for monitoring blood pressure and heart rate, patient medical monitors, namely, monitors for surgical Stimulation, analgesia and hypnotic related responses, pediatric breathing masks for medical purposes, permeable plastic films for medical use, phototherapeutic apparatus for medical purposes, phototherapeutic apparatus for medical purposes, namely, a led (light-emitting diode) light source for medical and aesthetic skin treatments, physical exercise apparatus, for medical purposes, physical rehabilitation, physical therapy and sports medicine equipment all designed specifically for medical use, namely, Shoulder stretcher using a cable, physical rehabilitation, physical therapy and sports medicine equipment all designed specifically for medical use, namely, Shoulder stretcher using resistance cables, plastic bags for transmitting medical specimens, portable medical devices used for breathing exercises, namely, portable devices used for endogenous breathing exercises and for respiratory muscle training, portable medical devices with sensors to monitor the physical movements of a patient wearing and carrying the device, postnatal girdles for medical purposes, post-surgical bras for medical purposes, post-surgical girdles for medical purposes, posture correction device, namely, an adjustable harness to correct one's posture for medical purposes, pregnancy girdles for medical purposes, probes for medical purposes, protective cases for medical inhalers, protective gloves for medical use, quartz lamps for medical purposes, radiological apparatus for diagnostic and medical purposes, namely, a helium-3 polarizer used for magnetic resonance imaging (MRJ) of the lungs, radiological apparatus for diagnostic and medical purposes, namely, magnetic resonance imager, radiological apparatus for medical purposes, respiratory masks for medical purposes, rigid and flexible medical endoscopes, sample preparation device for medical diagnostic uses, sanitary masks for dust isolation for medical purposes, sanitary masks for dust prevention for medical purposes, sanitary masks for medical purposes, sanitary masks for medical Wellness purposes, slings for medical use, splints, steam sterilizers for medical use, sterilization units for medical instruments, sterilization units for medical purposes, stirrups for use with medical examination tables, suction cups for medical purposes, Support belts for use during pregnancy for medical purposes, support mattresses for medical use, supporters for medical purposes, Supports for general medical use, Supports for ankle, wrist, leg, knee, arm for medical use, surgical and medical apparatus and instruments for use in general surgery, surgical and medical apparatus and instruments for use in orthopedic surgery, surgical and medical implant devices composed of artificial materials, namely, vertebral

staple-shaped implants, surgical apparatus and instruments for medical, dental and veterinary use, synthetic plastic medicated protective boots for equine hoofs, syringes for medical purposes and for injections, telemetry devices for medical applications, textile Covers for medical Ventilator tubing, textile Covers for Straps on facially oriented medical device, textile headgear specially adapted for use with medical Ventilator mask interfaces, therapeutic weighted products, namely, weighted blankets, lap pads and vests designed for clinical and home use to provide proprioceptive input to the body, thermometers for medical purposes, thermotherapy apparatus for medical purposes, thread for medical use, toilets adapted for medical patients and for use by handicapped persons, traction apparatus for medical use, transdermal drug delivery patches sold without medication, trolleys for medical equipment, ultrasonic bone densitometer with Computer, printer, and Computer Software for use therewith, sold as a unit, for medical diagnostic use, ultrasonic medical diagnostic apparatus, ultrasound probe for medical use, ultraviolet lamps for medical purposes, urinals, urinals for medical purposes, ultra-violet lamps for medical applications, vacuum pumps for medical purposes, vascular access ports for medical use, veterinary imaging products, namely, digital video camera connected to a tapered probe useful in viewing ear canals and other cavities of animals for diagnosis and treatment, vibrating apparatus used to stimulate muscles and increase strength and physical Performance for health and medical purposes, viscous gel polymer sold as a component of finished custom cushioned medical and therapeutic devices and equipment, namely, therapeutic braces, neo-natal care pouches, polymer custom cushioned orthotic inserts for footwear, Walking aids, warming device for stabilizing infant body temperature for medical purposes, water beds for medical purposes, water traps for separating liquid and bacterial/viral components from a gas sample withdrawn from a breathing gas of a patient before conducting the gas sample to a medical gas analyzer, x-ray apparatus for medical use, x-ray appliances for dental and medical use, x-ray photographs for medical purposes, x-ray tubes for medical purposes, artificial limbs, eyes and teeth ; orthopedic articles, namely, pillows, mattresses, sheets, bed sheets, bandages, ankle supports, kneepads, thigh protections, wrist straps, therapeutic adhesive patches, medical use dressings, feather quilts; orthopedic articles, namely orthopedic articles to replace and repair damaged and diseased bone and joint tissues in humans and animals; Suture materials

Certification Mark Text

The services are performed by persons who have met the following requirements: (1) Must successfully complete all educational requirements of the Registered Financial and Retirement Advisor Course Part 1 and Part 2, including all formal course assessments and a final course examination. The Tables of Contents to Part 1 and Part 2 of the course content are attached. Part 1 and Part 2 of the Course are divided into seven and ten units, respectively, with each unit covering a broad topic area relating primarily to retirement planning or estate planning. Each of the seven and ten units in Part 1 and Part 2, respectively, concludes with a formal assessment. To successfully complete the educational requirements of Part 1 and Part 2 of the Course, the person must complete and pass the following two mandatory components for each Part: (a) all seven and ten end-of-unit formal assessments, respectively, with a minimum grade of 60% on each formal assessment; followed by (b) a final course examination for each Part, with a minimum grade of 60%. A final course grade of 60% is required for each Part of the Course. (2) Must successfully complete the educational requirement of creating a financial and retirement plan based on a case study. (3) Must complete a minimum of 10 continuing education activities or credits approved by the applicant on an annual basis. An eligible continuing education activity must be educational in nature and must cover concepts directly related to retirement planning, estate planning and/or financial planning in general, and may include courses pre-approved by the applicant or alternate continuing education activities such as credit courses offered through a university, community college or other approved post-secondary educational institute, in house training, conferences, teaching, presenting, writing and/or editing papers, and other activities that are educational in nature and that relate specifically to retirement planning, estate planning or financial planning; and (4) Must adhere to the applicant's Code of Conduct and Practice Standards. A copy of the Code of Conduct is attached. The aforesaid standards are subject to change by the applicant from time to time.
